Colin Williams DipPFS, Cert CII (MP)
West and Wales

I am a qualified financial planner with 22 years experience in the profession.

For the past 17 years I have worked for Lloyd & Whyte, specialising in the provision of holistic planning to healthcare professionals, through our relationships with many of the UK's top professional associations, including the British Dental Association, British Veterinary Association and the Association of Optometrists, to name a few.

I believe that understanding people is key to helping clients achieve success, whether in their career or personal lives. Having a plan and taking the time to monitor and review it, helps to focus my clients on what really matters to them.

I advise on the more complex aspects of personal financial planning, particularly 'pre' and 'post' retirement advice - working with my clients to fulfil their aspirations.

I regularly attend events and conferences with our key Affinity Partners and present on various aspects of financial planning.

What can financial planning do for me? >>

Financial Planning...

What can financial planning do for me?

It brings direction, structure and results.

It brings all of your thoughts, worries and aspirations into a structured process that enables you to systematically work through them.

Thoughts become goals, worries are taken care of and aspirations can begin to feel more like a reality, however distant.

What matters to you?

Identifying what you want to achieve is crucial. Your objectives over the short, medium and long term will define your financial plan and ultimately deliver the results you want.

Once you have a definitive goal or target you are far more likely to achieve it. Similarly, working with someone who is helping you to stay focussed and on track just adds that extra incentive.

Example scenarios:

Recent graduate or young professional?

- **Basics:** Income, debt and cashflow management, protecting your income and future earning potential.
- **Considerations:** Save for a deposit for your first flat or house, starting a retirement fund (however small).
- **Aspirations:** Thoughts of buying into or owning your own practice.

Established professional taking life's big steps?

- **Basics:** Wider financial protection for all your commitments which supports a growing list of dependants, developing purposeful retirement provision, taking advantage of tax efficiencies.
- **Considerations:** A bigger or forever home, savings and investments for holidays, supporting future education, university or weddings, treating yourself to the new car.
- **Aspirations:** Buying into or practice purchase, developing other income streams, investing in a second property for holidays, rental and longer term retirement funding.

50 plus and preparing to enjoy the fruits of your labour?

- **Basics:** Understanding your assets, ensuring your retirement fund is ready for action, know your pre and post retirement options, including flexible pension implications.
- **Considerations:** Outlay for university fees or weddings, developing other income streams, investing in property, downsizing your home, thinking of your practice exit strategy, inheritance tax considerations.
- **Aspirations:** Enjoying the retirement you want, seeing the world, helping the kids and grandchildren.
